

Breakfast Series: 9:30-11:00 a.m.

No Registration

May 16: Viruses, Malware & Adware

Do you find protecting your computer confusing? John Dolinar, Executive Director Enterprise Infrastructure Services at Cuyahoga Community College, will help us sort it all out. He will explain the differences between viruses, malware, and adware and how to protect your computer from them.

June 20: Family History Center

Discover resources that the Family History Center in Westlake has to offer. It is a branch of FamilySearch and the Family History Library in Salt Lake city, Utah. Their goal is to assist you in the research and study of your genealogy and family history. Betty Franklin will also answer your questions about the center.

July 18: Be a Good Digital Citizen

Being a good digital citizen means to demonstrate and practice safe, responsible, and legal use of technology. A good digital citizen is someone who understands the rights and responsibilities that come with being online. Discover and reconfirm ways you practice being a good digital citizen.

August 15: Passwords and Password Management

Losing your password or having it stolen in today's world can be as detrimental as losing your wallet or having your house burgled. Join, Tine Walczyk, Trainers-R-Us, as she discusses how to keep your password secure and explore some prevention and recovery tips for keeping yourself safe online.

Learn about popular websites and internet tools from your home:
