

Breakfast Series: 9:30-11:00 a.m.

No Registration

May 15: **3D Printing**

Discover what is 3D Printing and how it is used today from the FAB LAB staff at Lorain County Community College. Information about the library's 3D printers and capabilities will also be available at this session.

June 19: **TBA**

Watch for upcoming announcements of the topic.

July 17: **What Will 5G Networks Do For Me?**

5G means 5th Generation, which is really a nickname for a collection of new mobile telecommunications standards that are being implemented right now. 4G networks gave us HD movie streams (Netflix), internet telephony (Uber) and live streaming (Instagram, Facebook Live), in addition to 3D television and cloud computing. Representing a leap forward in speed, capacity, and reliability, come to see what 5G really is and what it will do for you.

August 14: **Cyber Security Part II**

Randy Kimbro, FBI Citizen's Academy, will return to continue the discussion of cybercrime and security including new and updated information. Learn how cyber criminals make their money from your missteps and how to protect yourself to avoid becoming a victim. Randy will share tips on how to stay safe in the digital age.
